To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

News Digest.

Illinois bears off the palm for large Republican gatherings. Every day we read accounts of meetings in different parts of the State in which ten or fifteen thousand persons participated. But decidedly the largest meeting of the present campaign, excepting the Springfield gathering, was held at Peoria on Friday. It is estimated that *thirty thousand* persons were present. A torchlight procession of *five thousand* Wide-Awakes, in the evening, closed the proceedings of the day. The enthusiasm was unbounded.

Advices from California state that the breach between the two wings of the Democracy is widening, and that the prospects for a Republican triumph in November are fair.

SAMUEL BRUSH was executed at St. Louis on Friday, for the murder of a man named SCHMIDT in March last. He confessed his guilt.

It is reported that the U. S. steamer *Crusader* has captured a steam slaver on the coast of Cuba.

An unsuccessful attempt was recently made to steal the condemned slaver *Wildfire* from Key West. The hero of the adventure is Capt. PATTEN of yacht *Wanderer* notoriety.

Twenty persons, suspected of Abolitionism, have been hung in Texas. The loss by incendiary fires in the State is said to reach three million dollars.

Details of the foreign news by the *Fulton* will be found in our telegraph columns.

The Grain Trade.

The receipts of wheat on Saturday, as posted on change, were 85,450 bus., including flour. The streets of the Second, Fourth and Fifth Wards were crowded with teams all day from the country around, loaded with wheat, and the deliveries, exclusive of the amount brought in by the Rail Roads, must have been nearly, if not quite, 15,000 bushels, swelling the total receipts for the day to **100,000** bushels. The receipts for the week by Rail Road foot up 305,719 bushels. This is only the beginning of what we may expect by and by. The sales on Friday and Saturday were large, averaging for each day about 100,000 bushels, and the bulk of the sales on Saturday were at $1 for No. 1 spring in store—an advance of 11c above the prices of the previous Saturday. In the afternoon, however, the market receded to 90c for the same quality.

Letter from Mr. A. B. Pratt.

RIPON, August 29th, 1860.

To the Editor of the Milwaukee Sentinel:

SIR:—The undersigned respectfully asks a place in your columns, for the following statement, which seems necessary in consequence of a most remarkable communication from Mr. ANSON ROGERS, contained in the *Daily News* of yesterday.

The undersigned was chairman of the Ripon meeting of the 18th inst., and I say distinctly that Mr. ROGERS' account of that meeting, is untrue in almost every respect, and that the whole letter abounds in misstatements, perversions and falsehoods.

The facts are these: Mr. DANIELS, who has lived here many years, and is known to everybody, was arrested and taken to Milwaukee; a thousand rumors filled the streets as to the circumstances of his arrest and examination. It became known on Saturday that he would return on the evening train. A large number of his acquaintances and friends gathered to learn the particulars of his adventures; it was seen at once, upon his arrival here, that he would not reach home at all if he had to tell the story to each one who desired to hear it. Some gentleman proposed that Mr. DANIELS be suffered to go home at once, and return after tea and tell the whole story to the whole crowd at once.

This was agreed to, and at the appointed hour the City Hall was filled. Mr. DANIELS appeared, and told the story, and then justified and explained his previous conduct, reiterated his political views, and dismissed the audience without interruption, or disturbance from any source.

While we were in the confusion of passing from the room, Mr. DANIELS shouted to the audience that Mr. ROGERS, the Deputy Marshal who arrested him, was in the room, and he (DANIELS) desired us to resume our seats, in order that he might be corroborated in his remarks as to his conduct at the time of his arrest.

The audience complied with the request. Mr. ROGERS took a seat on the platform; Mr. DANIELS sat down beside him. This was the first sight we had had of Mr. ROGERS, and the first knowledge we had of his presence in the meeting.

A conversation ensued between Mr. ROGERS and Mr. DANIELS, in which Mr. ROGERS declared that the statement in the *News* that Mr. DANIELS at first proposed to resist the arrest, and then changed his mind," was *wholly unauthorized by him;* that he had never said so to any one connected with the *News*, or to any other person; that it was not true, and that he, (ROGERS) at the time of the arrest, was not afraid of DANIELS, and that DANIELS did not seem to be afraid of him.

Mr. ROGERS was then called on for a speech. He declined, but (still sitting in the chair) went on to express his opinions of the effect of resisting officers, about as he had stated in the *News*.

His appearance was so frank, his language was so firm, and yet so courteous, that he obtained the sympathy of his hearers at once. At one point in his remarks, an intoxicated man, residing, it is believed in Marquette county, cheered loudly when Mr. ROGERS characterized a previous assemblage as a mob. This called out a hiss. Mr. DANIELS and other Republicans promptly rebuked it, when the persons who hissed, as promptly explained that they were hissing the drunken man and not Mr. ROGERS.

Mr. ROGERS continued, only interrupted by frequent applause, until he had said all he desired to say.

Mr. MCCARTY was then called on by Mr. DANIELS, for a speech. He declined, and thereupon the meeting quietly adjourned.

The impression which Mr. ROGERS left on us was that he was a courteous, honorable, gentlemanly officer, and the worst thing thought, or said of him was, that it was a pity that he should deem it his duty to be engaged in such dirty business.

How sorely mistaken we were, let the following instances of falsehood in his letter show:

1st. It is false that Mr. ROGERS heard Mr. DANIELS "offer a resolution to resist the capture of BOOTH under all circumstances."

2d. It is false that any such resolution "passed the meeting by acclamation."

3d. It is false that Mr. DANIELS offered "another resolution that they would support the "constitution and all the laws of this State, that were in accordance with views of right and those that were wrong, they would resist."

4th. It is false that any such resolution "also passed unanimously."

In fact no vote, motion, or resolution was made, or offered by Mr. DANIELS, or any other person at such meeting, except the motion requesting me to act as chairman, and the motion to adjourn.

5th. It is false that Mr. ROGERS at any time during said meeting "rose in his place and told DANIELS that if he intended to apply certain language to him, he should resent it."

6th. It is false that there was any cry of "put him out," or any exclamation of any such nature or tendency, made by any one, at said meeting.

7th. It is false, that there was "a rush" of any sort, either at Mr. ROGERS, or any body else at said meeting.

8th. It is false that the meeting was adjourned before Mr. ROGERS "sat down," or before he had concluded his remarks, or that he was in any manner interrupted in his remarks, except by applause, except as above stated.

9th. Upon full enquiry, I am entirely satisfied that no "thirty men," or any number of men, have been at any time in consultation with regard to tarring and feathering Mr. ROGERS; that I am equally satisfied that Mr. ROGERS never informed any body that when the tar was all ready and warm, they (ROGERS and MCCARTY,) *would return into the street and be ready for the job*, or any thing of that nature whatever.

10th. I know that no flowers were thrown at Mr. BOOTH's feet on Sunday—that he was not cheered on Sunday—that no driver was discharged by a livery-man, for going to point out LA GRANGE—that no Republican who does not sympathise with Mr. BOOTH and his rescuers, dare not openly express himself. No one in Ripon heard or dreamed of these things, until the appearance of Mr. ROGERS' letter.

I desire to say further that the letter of Mr. ROGERS was read at length at a public meeting this evening, that at the conclusion of the reading of the letter, Mr. WILLIAM M. TAGGART, who is the President of the DOUGLAS Democratic Club of this place, and who is one of those whom Mr. ROGERS thanks for his "sympathy and kindness," arose in his place and stated that he never saw or spoke to Mr. ROGERS, and that neither he or his brothers had taken any part whatever in the recent excitement, on either side.

Finally. It is proper to say, that I have written the above in a much more moderate tone than my just indignation would dictate; that this was originally intended to have been numerously signed at the public meeting above referred to, and it was in substance read at that meeting; but as it did not seem to be a fair and full expression of the indignation and contempt of the people at the libellous charges of Mr. ROGERS, and as it was thought that a denial by any citizen of Ripon, however humble, would counterbalance anything that Mr. ROGERS might say, I have determined to submit this communication upon my own responsibility.

Very respectfully,
AMASA B. PRATT.

A Vote on the Cars.

Correspondence of the Sentinel.

ALBANY, Aug. 29th, 1860.

DEAR SENTINEL:—As we came along in the express train (consisting of eight well filled passenger cars) on the New York Central R. R., between Syracuse and Rome, two gentlemen took it into their heads to take a vote of the passengers, obtaining the following result:

Lincoln	84
Douglas	44
Bell	11
Breckinridge	10
Sam Houston	1
Total	150

There was not a single case of refusing to give their votes.

Distressing Casuality—Gain Robinson Run over by the Cars.

About half-past ten o'clock last evening we were summoned to witness one of the most heart-sickening, terrible sights that we ever had to look upon. At the Central Railroad Depot, on a rough pallett, hastily thrown upon the floor, lay the mangled, bloody, half destroyed form of a man, whom those around said was Gain Robinson. We should scarcely have known that it was he, although his face has been among the most familiar—sadly familiar—that we met in the street, so fearfully had he been changed by the destroying hand.

To briefly recount the tragical story—these mangled remains of the unfortunate man were discovered beside the railroad track, some few rods from the depot, a moment after the passage of the train due at half-past ten.—Until their discovery by one of the watchmen, no one was conscious of the accident. It is probable that poor Gain had stumbled across the track, and was lying partly upon it, in drunken unconsciousness of danger, when the train came up; otherwise the engineer's eye would have caught some glimpse of him. He was seen only about ten minutes before, staggering down Michigan street, away from a drinking place in the vicinity, and some one remarked that he ought to be seen to, or he might fall into the canal. A worse fate was reserved for him—one that cannot be contemplated without a peculiar shuddering of horror.

The wheels of the locomotive and cars passed over both of his legs and his left arm, severing each limb completely, only a few threads of flesh and tendon uniting the parts. The left leg was cut off at the ankle, the right just above the knee, and the arm at the elbow. When picked up he was conscious, and spoke anxiously of his wife and children. Not long after he had been brought to the depot he relapsed into unconsciousness, and remained apparently insensible for some time, when he revived again, and just before we left the dreadful scene he had spoken again of his wife, begging that she might come to him, and saying that he was going to die. His wife had been sent for but had not then arrived.

Several physicians had been speedily summoned, and were busily engaged in dressing the injured limbs when we arrived; but they could do nothing with any hope. It was impossible for him to survive the night, they said, and, with little doubt, before this reaches our readers, death will have released him from his sufferings.

We presume there are very few among our readers who have not known something of Gain Robinson, whose sad history ends thus terribly. Still a young man, he has been to almost every one a familiar wreck of genius. Gifted with rare intellectual powers and brilliant qualities, capable of winning high distinction in his profession of the law, he sacrificed everything to the vice which overcame him, and had become an almost complete ruin of his former self. All sorrowed for him, thinking how different might have been his career, and it will be but deepened sorrow and pain with which those who knew him will learn of the dreadful tragedy in which his life closes.—*Buffalo Express, Aug. 8.*

HORRIBLE FUNERAL PYRE.—Accounts from Africa state that the King of Dahomey is about to make an immense sacrifice of human life to the memory of his late father. A great pit has been dug, and in this pit two thousand persons will be sacrificed. He has sent out an expedition to capture prisoners, the younger portion of whom will be sold on the coast to slavers, while the old will be thrown into the pit to appease the manes of the deceased king.

Departure of Steamers.

FOR TWO RIVERS.

The steamer *Huron* leaves Olmsted's dock, every evening at 8 o'clock, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR BUFFALO.

Screw steamers, with good accommodations, leave the different transportation docks every day, for Buffalo.

FOR OSWEGO AND OGDENSBURGH.

One of the Northern Transportation Co's screw steamers sails for the above ports every day, from the the Company's dock at the M. & Miss. R. R. depot, touching at nearly all intermediate ports.

FOR COLLINGWOOD.

The Collingwood Line of screw steamers leave semi-weekly from Dousman's dock, foot of East Water Street, connecting at Collingwood with the Northern Railway of Canada, for the East.

FOR GREEN BAY.

The screw steamer *Ogontz* makes weekly trips to the above port starting from Olmsted's dock.

Republican Meeting.

Notice is hereby given that there will be a business meeting of the Republican Central Club, at Head Quarters, in Albany Building, next Wednesday evening, Sept. 5th, at 7 o'clock.

The committee on finance and other arrangement committees are expected to report. Let there be a full attendance.

N. SCHANTZ, }

Fourth Ward Republican Club.

The members of the Fourth Ward Republican Club are requested to attend an adjourned meeting at Plankinton's Hall, on Tuesday evening, Sept. 4. Let there be a grand rally, as matters of importance come up for action.

BY ORDER OF THE PRESIDENT.

Senator Seward at Detroit.

The great Senator from New York is expected to arrive at Detroit this evening, and will speak there to-morrow afternoon. The gathering will, no doubt, be the largest and finest popular demonstration that Michigan has ever seen. We hope that a delegation of our Milwaukee Republicans will go thither to see the sight. Should a fair number offer, the Detroit and Milwaukee Railway will convey them to Detroit and back for *five dollars* each. Those desirous of going, will please leave their names at the SENTINEL office before 12 o'clock to-day, that the necessary arrangements may be made.

TORCHES FOR THE SEWARD RECEPTION.—The First Ward have ordered one hundred torches, and the Fourth Ward one hundred and fifty to be used in the reception of Sen. Seward, and for any future occasion as may be necessary. Let us hear from the other Wards. The time has arrived for definite action in every Ward—not merely with a view to make one spasmodic effort, but energetically push the canvass throughout the city and county. Chicago, Cincinnati and St. Louis, have been made strongly Republican by vigilant, energetic organization; and the same vigilance and energy extended by them will make Milwaukee henceforth, Republican to the core. Everybody in the city was astonished at the success which crowned our efforts in the Spring; more earnest work for the balance of the campaign, will produce still better results. Republicanism expects every man to do do his duty; will he not do it?—*Free Democrat of Saturday*

We copy, in order to endorse what the *Free Democrat* says. *Work* is what is needed in our city, to swell the Republican vote in Milwaukee. We shall probably know by Wednesday when Senator SEWARD will reach our city. According to his published engagements in Michigan, he can hardly get here before Monday next. But when he *does* come, let every Republican in Milwaukee turn out to bid him welcome to WISCONSIN.

PROMPT PAY.—Several years since, GEO. W. STOUL, late of Portage City in this State, obtained an insurance upon his life in the Connecticut Mutual Life Insurance Co., the to the amount of $3,000, for the benefit of his wife and family.

Mr. STOUL went to Texas, last winter for the benefit of his health, where he died about the first of July; satisfactory proof of the death having been furnished, the money was last week paid over to the family by the agent in this city, without waiting the expiration of the ninety day's allowed by the conditions of the policy.

The Agent of the Connecticut Mutual Life Insurance Company, in this city, is our late Mayor, Mr. H. L. PAGE. The capital of the Company is over *three millions* of dollars, all well invested, and the six, or eight losses they have met with here, have all been promptly paid, without any question, or the furnishing of the customary proofs.

NILES HIGH SCHOOL AND MR. MCKINDLEY.—The Niles *Enquirer* says: "The trustees of the Niles Union School have secured the services of Mr. MCKINDLEY, late Principal of the High School in Milwaukee, to take charge of the School for the ensuing year. We have personally known Mr. MCKINDLEY since he commenced his labors as Principal of the Kenosha Union School seven years ago, and believe few men stand as high in the public estimation as he. We congratulate our people that they have been so fortunate as to secure the services of this distinguished teacher, and trust he may receive from all, a welcome, worthy of the man and the position to which he has been called."

LECTURE.—Rev. WM. F. CLARKE, recently of Victoria, Vancouver's Island, and formerly of Waukesha, Wis., will deliver a lecture on this (Monday) evening, in the Spring St. Congregational Church, at 8 o'clock, on "The Colonies of Vancouver's Island and British Columbia."

The chief topic of the lecture will be a history of the Frazer River gold excitement, descriptions of those regions, including some account of Washington Territory and Puget Sound—details of mining operations—state of society—notice of Hudson Bay Company operations—government—characteristics of Indian tribes—comparison of those regions with Wisconsin, Canada, &c.

Admission, free—collection will be taken to defray expenses.

MATCH AT BASE BALL.—The match between the Milwaukee and Excelsior Base Ball Clubs, came off on Saturday afternoon, and resulted in an easy victory for the latter. The first two or three innings were well played and closely contested. After that, the play of the Milwaukee nine fell off, while that of the Excelsiors improved. The return match, we learn, will come off next Saturday, when the Milwaukee Club hopes to improve their score.

A Pill for Wisconsin Democrats!

A PARTY WHOSE PRINCIPLES NEVER CHANGE!!

The following is a literal copy of a huge placard got up by the Democrats of this State in 1849, and which was posted all through this part of the State at least, at that time.

The original, from which this copy is made, is now in the hands of H. J. PAINE, of this city, and was carried, in the Fall of '49, in the Democratic processions. And for that purpose, it was pasted on canvas and has thus been preserved by an ardent Democrat, who wished to see if Democratic principles ever changed.

Read it, ye Democrats, and tell us where you now are!

Read it, and tell us if you will vote for those principles now, for which you shouted in 1849!

Read it, and see how you have gone over, like sheep, to the shambles of the Slave Power!

The original placard is about seven feet long, and the lettering is for the most part in large capitals.

Mr. PAINE will, we presume, show it to all Democrats of an enquiring turn of mind

The American Encyclopedia.

We are indebted to the publishers, D. APPLETON & Co., New York, through the hands of STRICKLAND & Co, for the tenth volume of this admirable work. It includes subjects from "Jerusalem" to "Macferrin," and is characterized by the same accuracy and fullness of detail and careful research that have marked the preceding volumes. It is withal printed in the best style of the art, so that it is a pleasure to read its fair pages.

Among the living characters of whom biographies are given, we notice the names of Reverdy Johnson, Prince de Joinville, Kensett the artist, Thomas Starr King, Charles Kingsley, Bishop Kenrick, Owen Jones, Kossuth, Francis Lieber, Abraham Lincoln, Liebig, Samuel Lover, Jenny Lind, Liszt, Captain Lynch, U. S. A, Landseer, Lamartine, Landor, Leverrier the astronomer, Madame Le Vert, of Mobile, Longfellow, Lowell and Sir Charles Lyell. Among the more noticeable articles may be mentioned the biography of Rufus King, by President King, of Columbia College; biographies of the Lee family, by John Esten Cooke, of Virginia; biographies of members of the Laurens Family, by W. Gilmore Simms; "Lighthouse," by Capt. W. B. Franklin, of the United States Topographical Engineers at Washington; "Loan," by Professor Parsons, of Harvard, who also contributes articles entitled "House of Lords," "Lottery," "Lunacy," "Larceny," "Loan Merchant," and "Libel."

There are, states the New York *Post*, several of the regular contributors to the *Cyclopedia* who, though not often specially mentioned, have done a great deal to render the work as acceptable as it is. Of these gentlemen, Julius Bing contributes largely on various subjects, but principally those relating to German topography, language, biography and history. Mr. J. T. Hodge, of the Cooper Institute, attends to the scientific department. Mr. Charles S. Weyman writes the musical and many miscellaneous articles. To the present volume of the *Cyclopedia* Mr. Bing contributes ten of the principal articles, Mr. Hodge five and Mr. Weyman ten.

The religious contributions are generally from the pens of clergymen, among whom may be mentioned, Rev. Dr. Sprague, of Albany, who gives a biography of Rev. Dr. Lothrop; Rev. J. L Russel, of Salem, Mass., Rev. Dr. Krauth, of Philadelphia, and Rev. Dr. Schaff, of Mercersburg, Pennsylvania.

Charles C. Hazelwell, of Boston, contributes the notice of Macaulay.

The biography of Abraham Lincoln occupies two and half pages, giving a fair sketch of his early life and subsequent career. An extract is made from one of Mr. Lincoln's speeches during the Douglas debate, giving the speaker's opinion on slavery, and the nomination of Mr. Lincoln by the Chicago Convention is duly recorded. The article is written with care, but the name of the author is not given.

The *Encyclopedia* is one of those valuable and instructive works, replete with full and reliable information on almost every conceivable subject, which ought to be in all public and private libraries, and become as much of a "household" book as the Bible and Shakspeare. Copies may be seen at STRICKLAND'S.

NOTICE.—The St. George's Society will hold their monthly meeting at their rooms on Monday evening next, Sept. 3, at half-past seven o'clock.

Milwaukee High School in the Second Ward.

E. P. LARKIN, A. M., Principal; AUG. KURSTEINER, A. M., Prof. of Modern Languages and Literature; Madame SEIBERT, Teacher in French; Miss M. R. WHEELOCK, Miss A. E. MINER, Assistants.

The fall term of the High School will open on Monday, September 3d, at 10 o'clock A. M. By a resolution of the Board of School Commissioners, there will be organized a Normal Class, which will be FREE to all who are found competent to enter it. The tuition of the High School will be reduced to as low a figure as possible and pay the current expenses of the school. The rate will probably be four, six and eight dollars; French extra. No efforts will be spared to make the school a High School in fact, as well as in name. If a sufficient number are found competent to enter upon such studies, classes will be organized, in Physiology, Natural Philosophy, Chemistry, High Algebra, Geometry, Mental Philosophy, Latin, Greek, German and French. Particular attention will be given to instructions in the high English branches, viz: High Arithmetic, Grammer, Rhetoric, High School and Physical Geography, Elementary Algebra, Elocution, English Composition, etc.

To those who desire to prepare for the responsible duties of teaching, special facilities will be offered, and when it is considered that eight out of the ten members of the last Normal Class have been engaged as teachers—of whom six are occupying positions in the public schools of our city—no doubt will be entertained that the readiest way to attain a useful and desirable position as teacher, is to undergo the labor and patient study necessary to become thoroughly qualified for the teacher's duties.

It is hoped that the demand for a more thorough education will, in a measure, be met by the facilities which the High School offers, until such time as the city shall be in a financial condition to furnish High School instruction gratuitously to the youth who are compelled to look to her for their education. The Normal Class will be conducted by the Principal, assisted by the Superintendent and several of the Principals in the other public schools.

WE TAKE pleasure in chronicling the various and multiplied improvements in the useful machinery of the day. In this instance, in calling the attention of every one using a scale to the great improvements found in HOWE'S STANDARD SCALE. The principle of leverage, as used by every scale heretofore manufactured, is the same as in that of scales of fifty years ago; and although the manufacture of portable platform scales is more modern, still the old-fashioned check rods, with the platform resting and wearing upon the knife edges, has been the only scale offered to the public. The HOWE's scale requires no pit, which in a prairie country, particularly, is of great advantage, and all friction, instead of being received on knife edges, as in others, is by an ingenious device received on chilled iron balls, and it will weigh accurately either in or out of level.—As an instance of this, we will mention that one of their two hundred ton scales put up seven feet out of level, has been in use four years, and weighs as accurately to-day, as when first put down. We advise every one to examine HOWE'S STANDARD SCALES, confident that it will by inspection, recommend itself to that best of all the senses, common sense. THOS. S. DICKERSON, at his metal Warehouse, 45 Wabash Avenue, (Burch's Iron Building,) has a large sale-room for these scales, where may be seen every variety, from the most delicate Post Office balance, to the thirty ton railroad track scale.—*Chicago Democrat.*

SARSAPARILLA.—The tropical root has a reputation wide as the world, for curing one class of the disorders that afflict mankind—a reputation, too, which it deserves as the best antidote we possess for scrofulous complaints. But to be brought into use, its virtues must be concentrated and combined with other medicines that increase its power.—Some reliable compound of this character is much needed in the community. Read the advertisement of Dr. AYER's Sarsaparilla in our columns, and we know it needs no encomium from us to give our citizens confidence in what he offers.—*Organ, Syracuse, N. Y.*

MILITARY ELECTION.—At the adjourned meeting of the commissioned officers of the Fifth Regiment, held at the Mansion House, Charlestown, this forenoon, Hamlin W. Keys was unanimously elected Major, vice Keitell, resigned.—*Boston Journal.*

The Major elect is a brother of Mr. D. W. KEYES, of this city, late Lieutenant in the Milwaukee Light Guard, and long and usefully connected with the management of the Milwaukee and Minnesota R R. Company. If the Major is as clever a fellow as his brother, the Lieutenant, *he'll do.*

SECOND WARD HIGH SCHOOL.—The High School, under the direction of Professor LARKIN, assisted by Professor KURSTEINER and other competent assistants, will be opened in the Second Ward Public School building this, Monday, morning, at 10 o'clock.—There will be a *free* Normal Class attached to the School, and every effort will be made to render the School worthy of patronage. The examination for admission into the Normal Class and the High School will take place to day. Candidates are requested to attend punctually by 10 o'clock.

To Shippers of Freight
TO THE NORTH-WEST.
THE LA CROSSE & ST. PAUL
UNITED STATES MAIL PACKET LINE
Running only between LA CROSSE & ST. PAUL for the transmission of
Passengers, Freight and Mails.
THE PACKET LINE IS COMPOSED of the Steam Packets
Favorite, Frank Steele, Winona, and Aeolian,
Acknowledged to be the best boats for the trade upon the Upper Mississippi, being of lighter draft than any now running.
This Line carries the United States Mail, and has not missed a daily connection since it was established, with the trains, either way, upon the La Crosse & Milwaukee Railroad.
Shippers from Milwaukee will see that this is the most reliable Line of Boats for Freight, as the lightness of draft enables them to make their trip without delay, while by any other route delays are unavoidable.
One of the above Boats will leave La Crosse every evening, on the arrival of the 1:55 P. M. train from Milwaukee, and returning arrive at La Crosse in season to connect with the Express Passenger train, which leaves at 5 A. M.

SPECIAL NOTICE.
THERE IS A RARE OPPORTUNITY for a good BLACKSMITH and a good SHOEMAKER to establish themselves in a lucrative business, in the town of Herseyville, in Monroe County, Wisconsin. It is located on the line of the LaCrosse & Milwaukee Railroad, in the heart of the famous La Crosse Valley, one of the pleasantest and healthiest parts of the State. Being a new place, the owner of the lands in the vicinity of the depot proposes to furnish building lots for shops and dwellings, to a limited number, FREE, so as to enable some industrious, but poor mechanics, an excellent chance to better their immediate prospects. The place is thriving, and has, at present, some two or three hundred farmers within five miles; and two good water-powers within half a mile of the depot; also a post-office and store. Large quantities of wheat are shipped daily from this station.

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground, which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a man, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

Things Needful—Republicans to the Work!

The following suggestions, which we find in the Albany Evening *Journal*, are as appropriate in Wisconsin, as in the Empire State. We commend them to the earnest attention of our Republican readers all over the State and urge that no time be lost in carrying them out. There remain but *two months* to election, and much is yet to be done to call out the entire Republican strength at the polls in November. Read, then, and heed these timely suggestions:

"In the prosecution of the Campaign to a successful issue, there are several things indispensable.

First.—There should be a working Club formed in every ward and town in the State. The more young men there are enlisted in these Clubs the better. It would, generally, be prudent to let them take the laboring oar; but there should be in each Club a sufficient number of 'old men for counsel.' The example will be good; and no where is experience more valuable.

Second.—Neighborhood meetings should be held as often as once a week, for the discussion of the *principles at issue.* Every neighborhood can furnish its own speakers, if others are unavailable. Or if there are no formal speeches, there can be promiscuous conversation, a free interchange of sentiments and a general distribution of documents.—There will always be found enough to talk about and enough to do.

Third.—But the most important work is the Canvass of the Election Districts. If a Club did nothing effectually but this, it would do a great deal towards achieving the victory in reserve for us. The process is familiar to every one. Every name in every Election District in the State, should be enrolled and carefully classified before the first day of October.

Fourth.—Although Mass Meetings are not indispensable to success, they will be called. And when they are, every Republican who possibly can, should attend them. Let the 'fizzles' be all with the 'Dough Faces' this year.

Fifth.—Encourage your Wide-Awake organizations. Upon them is to be thrown the heavy work of the campaign. Those who, from any cause, are not in their ranks, should see to it that they are supplied with whatever is necessary to render them efficient.—They will constitute an attractive feature at all our Mass Meetings. See that they are enabled to go where their presence will be of service.

These are some of the things necessary to be done. If they *are* done, promptly and thoroughly, as we have no doubt they will be, the State will occupy as proud a position in this, as she did in the contest of fifty-six."

"The Battle Field of the Union."

In the general opinion of politicians New York, at the coming election, will be "the battle-field of the Union." If Mr. LINCOLN carries the Empire State, his friends do not doubt and his opponents pretty much concede, his election. Since the Douglas Know-Nothing fusion in New York the leaders of the coalition and the presses which sail under this "dark lantern" flag, affect to have some hopes of carrying the State for their hybrid ticket. These hopes are illusive.—The "fusion" has weakened DOUGLAS and strengthened LINCOLN, not in New York only, but in every other Northern State.—The shameless profligacy of the political tricksters who got up this "bargain and sale" has disgusted thousands of honest and conscientious Democrats and driven them into the LINCOLN ranks.

The N. Y. *Evening Post*, a cautious and reliable paper, gives a detailed estimate of the vote of New York by counties, showing a majority for LINCOLN of 46 900. In this estimate, New York City is put down at 30,000 and King's County at 10,000 Anti-Republican. The N. Y. *Tribune* also gives an estimate of the vote which we subjoin:

MAJORITIES FOR LINCOLN.

Allegheny	4,000	Niagara	1,500

Orange	300	Westchester	500
Putnam	200		
Queens	500	Total	36,500
Richmond	500		

Lincoln over all sorts in the State.......55,300

The *Tribune* adds to its table the following remark:

> We hope to do better than the above in many counties, especially in Albany, Orange, Suffolk and Ulster, all which we trust will go for Lincoln; but fifty thousand majority will answer, against All Sorts. If the Breckinridge men resist fusion with Brooks, Cagger & Co., we confidently expect to make it one hundred thousand.

The Know-Nothings in Council.

The American [K. N.] State Council met at Schenectady, New York, on Wednesday last, to take action in regard to the late DOUGLAS and Know-Nothing fusion in that State.—Following the example of their Democratic allies, the Council had a regular row, and broke in two. The majority, headed by BROOKS, of the N. Y. *Express*, the most thorough-going K. N. organ in New York, endorsed the DOUGLAS-Know-Nothing Electoral Ticket. The minority seceded and resolved that as the party had no distinctive candidate for President, or State Officers in the field, each member should be at liberty to vote as he pleased. The only practical result of the gathering was to stamp the DOUGLAS-BELL ticket with the *official* K.-N. brand. But its genuine Know-Nothing character was already perfectly well known to the electors of New York.

"NO MAN CAN SERVE TWO MASTERS."—That is an old and true saying. But Mr. REYMERT, the Sham Democratic nominee for Congress in the Second District of this State, seems anxious to serve *three.* Here is his certificate of character from the La Crosse *Democrat:*

> For several years he has held the very important position of Receiver of Public Money at Hudson, where he has had charge of the Government Land Office, and so well has he performed the duties of his office, that he has lately been appointed Deputy Sub-Treasurer for Wisconsin and Minnesota, to take charge of and disburse government money for the two mentioned States.
>
> He holds now, as he has for a long time, an appointment under the present Administration, but no office could make him think otherwise than that Douglas and Johnson were, and are the regular nominees of the Democratic party.

It appears from the above that Mr. REYMERT holds office under the present administration, is a professed follower of DOUGLAS, and wants to serve the People! That is asking a little *too* much. Let Mr. REYMERT throw off his Federal living before he appeals to the electors to be taken into their service.

HAD RATHER SEE LINCOLN ELECTED.—The Washington correspondent of the New York *World*, telegraphs that "Collector Schell is at Bedford Springs, awaiting orders from Mr. Buchanan in regard to the fusion movement in New York. The President opposes any amalgamation of the Breckinridge and Douglas tickets, for he would rather see Lincoln than Douglas occupying his seat." There is no doubt that this is the feeling that these Breckinridge disunionists have all over the country.—*Buffalo Republic (Douglas.)*

There is as little doubt that the DOUGLAS men reciprocate the sentiment. The great mass of them would sooner see LINCOLN than BRECKINRIDGE occupying the seat of Mr. BUCHANAN. For our part we think that both factions are eminently sound in this opinion. They had better make a sure thing of it by voting direct for LINCOLN, and thus run no risk of disappointment.

The Prince at Montreal.

Correspondence of the Sentinel.

MONTREAL, August 27.

A DISAPPOINTMENT.

The Prince was to have landed here on Friday afternoon, but owing to the severe rain, he was induced, at the urgent solicitation of the Mayor, to postpone his entry into Montreal till the next day. Accordingly, the *Kingston*, with Prince and suite on board, anchored below the town and there remained till Saturday morning.

Notwithstanding the prospects of a thorough drenching, a vast crowd had assembled on the wharf a little after 2 o'clock, so strong was the opinion that His Royal Highness would arrive, no matter what the state of the weather.

The scene here was very striking. High over all the other buildings, the City Hall displayed a line of flags running from each side of the immense dome to the roof below. Flags, English and French, floated from the Bonsecours Church, and streamed from the windows of the warehouses, a long, bright line as far as the eye could see.

The war steamers *Valorous, Styx* and *Flying Fish* had a fine display of bunting. The other vessels at the wharf were also decorated with flags. Some of the smaller craft in the harbor were decorated with evergreens. From the dome of the City Hall down to its lowest story, the windows were thronged with gazers. The roofs—the windows of the houses running in a line from the barracks to the canal, were black with human beings—crowded on the ends of the wharves—packed in rows along the whole line of the revetment wall—mounted on the yards of the vessels—the eye grew weary scanning the vast assemblage which loyalty and curiosity had brought together. There could not have been fewer than 40,000 persons, and it is a matter of regret that the weather was the cause of disappointment to so many. The assemblage next morning was, however, scarcely less numerous, showing that popular interest had held out all night.

THE ARRIVAL.

At ten on Saturday morning, the Prince disembarked, accompanied by his suite, was received by the Mayor and presented with the address, to which he replied, and was then escorted by a guard of honor of volunteer cavalry and a detachment of the Royal Canadian Rifles, accompanied by a long procession to the building of the Lower Canada exhibition, which he formally opened. The streets were all hung with flags, and royal salutes were fired by the ships in port at the time of the landing.

Having proceeded from the exhibition building to his residence—the mansion of Hon. JOHN ROSE—where he tarried a few minutes, the Prince proceeded to the Victoria Bridge which was formally inaugurated by him.

To-day the Prince held a levee and received 2,000 presentations. The programme for the following days is this:

His Royal Highness will hold a Levee early in the afternoon, and in the evening attend a Grand Ball in the Building erected expressly for the occasion.

Tuesday, 28th August—In the morning His Royal Highness will proceed on an excursion up the River, and will descend the Rapids.

In the afternoon, Trial of Fire-Engines.

In the evening, Grand Musical Festival, at which the Oratorio Society of Montreal will perform, to be followed by a Grand Cantata by 250 performers, composed expressly in honor of the visit of His Royal Highness, and conclude with a splendid programme led by M. Strakosch, of the Academy of Music of New York, in which Mdlle. Adelina Patti, and other celebrated Artists, will appear.

Wednesday, 29th August—His Royal Highness will leave on a visit to St. Hyacinthe and Sherbrooke.

In the evening there will be a Fireman's Torchlight Procession.

Thursday, 30th August—Regatta in the afternoon.

In the evening, Grand Display of Fireworks at the Reservoir, near the Mountain.

On the morning of the departure of H. R. Highness, there will be escorts, guards of honor, and salutes by the Active Volunteer Militia Force of this city, and such a Procession as may be organized for the occasion.

WEDNESDAY, Aug 29th.

The ball last night was the most splendid thing of the kind ever seen in Canada.—Some five thousand persons were present. The Prince opened the ball by dancing with Hon. Mrs. JNO. YOUNG. Distinguished visitors from all parts of the States were in attendance. Among others at the ball were Hon. WM. P. LYNDE, the Mayor of Milwaukee, Mayor WENTWORTH of Chicago, and Gov. BUCKINGHAM of Connecticut.

To-day is the trial of engines, and to-morrow the Prince visits St. Hyacinthe.

He will be in Ottawa on Saturday.

Yours, BADGER.

A NEW VARIETY OF PLUMS.—B. B. Eldredge, Esq., of this city, has a variety of plums growing in his garden, which are worthy of the attention of horticulturists.—They have a very fine peachy flavor, good size, yellowish green color, and are said by Mr. Eldredge to be entirely exempt from the attacks of the curculio. The tree is also free from the diseases which are so destructive to plum trees in the west. It originated in the garden of Mr. Eldredge's father, in the State of New York, and if found worthy of general cultivation, as we have doubt it will, it should be called the "Eldredge Plum."—*Janesville Gazette.*

We hope to hear of more of the same kind. Let them be propagated.

THE IRISH HEART.—The attachment of the Irish heart seems to be almost supernatural. In Chicago, a few days since, a young Irishman was run over and killed by a hose cart on the way to a fire. He was buried on Friday, and on the same occasion the obsequies were shared by his sister, with him an orphan, to whom the sudden shock of his sudden death proved too much to be sustained. She sank beneath it, and brother and sister lie side by side.

NEW ORLEANS.—A duel took place on the 23d, near the Creole Course, between Mr. F. Yates, an officer of the Custom House, and Capt. Chandler, of the steamboat *Telegram.* Four shots were exchanged, and at the fourth fire Mr. Yates received his antagonist's bullet in his side. His wound was a serious one. Mr. Chandler was not hit. Mr. Yates died from the effect of his wound, on the 27th.

A YOUNG LADY asked a gentleman the meaning of the word surrogate, and the gentleman explained it to her as "a gate through which parties have to pass to get married." "Then I imagine," said the lady, "that it is a corruption of sorrow gate." "You are right, miss," replied her informant, "as woman is an abbreviation of woe to man."

A TRIP TO ST. PAUL.

Cheap Fare—Minnesota Packet Co.—Milwaukee Ahead—La Crosse R. R.—Wheat Crop—Politics, etc., etc.

Correspondence of the Sentinel.

ST. PAUL, Aug. 30th, 1860.

Left Milwaukee, the beautiful City of yellow bricks, fine elegant blocks of splendid stores, and magnificent dwellings, on Friday evening at 11 o'clock, and arrived at Prairie du Chien at 10 o'clock Saturday morning. Found the fast and well officered steamer Milwaukee waiting for the arrival of the train. As soon as all were on board, away she went for St. Paul with a fair load of passengers. Such clean beds, attentive waiters and gentlemanly officers, are a little scarce. We did not hear an oath from one of the officers or crew while on board, strange to say; but the time has come, and we are glad of it, when it is considered ungentlemanly for even sailors and boatmen to use profane language.

We had a fine passage notwithstanding the low water. The skill of the pilot caused us safely to arrive at La Crosse, where we waited the arrival of the 11 o'clock night train—There we had an accession of passengers and carried them to St Paul for ONE dollar each, instead of FOUR, the usual price. By the way, traveling is cheap now, $6,50 from Chicago to St. Paul, and $5,25, from your city to St. Paul—fun for travelers, but death, small profits to Railroads. No matter, let them skirmish a little—travelers win, if R. R's. *do lose.* The Frank Steele was also waiting for the train. She runs in connection with the La Crosse Road, but her officers had the good sense to let us go first and we saw no more of her, as we arrived at St. Paul at 1 1-2, Monday morning and the Steele about 11 or 12 o'clock same day. Our passengers who desired, took the 4 o'clock stage up river and the Steele's the next day's stage.

The wheat crop is immense. Four or five millions to spare for export. Wheat is now offered for 50 to 55 cents. Have not some of your NEWHALLS, WEEKS, or WHEELERS a few thousands to spare to invest in the finest wheat (63 or 64 pounds to the bushel) that ever grew, at 55c, including storage? *Always a safe investment at such prices.*

The two wings of the Democracy are fighting and tearing each other like the belligerants of the amiable town in old Ireland—though they have not eaten each other up to the *extremeties* mentioned, but their progress is such, it is ascertained, that they will pinch up each other in November next. We beat them *undivided* last year about 3,500 and could have done it 5,000 to 6,000 this year, but as they are divided, the scattered fragments of this broken and routed hosts cannot be found after election. Minnesota is as sure for LINCOLN as Wisconsin, Massachusetts, or Vermont, whose sun *never sets.*

CHIPPEWA.

The New Light-House on Minot's Ledge.

This is emphatically the Eddystone of America. The time for its construction has been necessarily extended, owing to the very exposed situation of the rock on which it is built. Great credit is due for the speedy completion of the work to Capt. B. S. Alexander, corps of engineers U. S. A., the superintendent of the construction. The lighthouse is built upon one of the Cohasset rocks, or Minot's Ledge, which lie eight miles S. E. 1-2 E. from Boston light, and six miles N. 1-2 W. from Scituate light.—There are fifteen large rocks comprising the group and their heads are constantly above water. Heretofore these rocks have proved very dangerous to vessels on the coast.

The nearest land is Scituate, which is three miles distant. These rocks extend from three and a half to four miles North and South; there is a channel through them by which small vessels can, in fine weather, pass. The water around the rocks is quite deep, varying from five to six fathoms. At present there is a light-ship anchored on Minot's Ledge, which exhibits two fixed lights 45 feet above the level of the sea.

The work of constructing this light-house was commenced on Sunday morning, July 1st, 1855. There was formerly an iron pile light-house on the ledge, but it was destroyed in a terrific gale of wind April 16th, 1851.

The work of the present light-house has progressed very rapidly, considering the position of the rock, and the inconvenience of landing and working tide work. The excavation of the foundation pit was the most difficult, for during the year 1855 the workmen were only able to labor 130 hours. In 1856 they worked 157 hours. In 1857 only 130 hours and 21 minutes, during which time they were enabled to lay the first four stones used in the construction. The 208 hours in 1858, were used in laying six courses of stone work, and thenceforward the men were enabled to work, without so many inconveniences. In 1859 they worked 337 hours, and during this time the remaining 26 courses were laid, and the work was ready to receive the lantern. The total number of hours employed in the construction of the tower has been 1,102 and 21 minutes. The first stone was laid July 9, 1857, and the lowest stone was laid July 11, 1858. There were 3,514 tons of rough stone and 2,357 tons of hammered stone used in the construction of the light house, and as the building stands it is composed of 1,079 stones.

The tower is round and solid for some distance up, and is built in the most substantial manner.

The following are the dimensions:

	ft.	in.
Height from bottom of the lower stone to top of pinnacle	114	1
Height of focal plane above the lowest point	96	1
Height of plane above mean high water	84	1
Diameter of 3rd or first full course	30	0
Diameter of 22nd course, solid part	23	0

The structure was inaugurated October 2, 1858, on which occasion addresses were delivered by Capt. B. S. Alexander, Mayor Lincoln, Hon. E. Everett, Col. J. T. Heard, Dr. Winslow Lewis and several others. Last Wednesday evening the lantern was lighted for the first time, with a view of testing the power of the light. The lantern was darkened on the off-shore side, and was exhibited towards the shore. The light is a very powerful one, and could be seen at a great distance, and the contrast between this light and that of the light ship was very great. The light will be exhibited on the night of the 15th of November, and every night thereafter.—*N. Y. Commercial Advertiser.*

THE CROPS.—After circulating considerably through the country, and making numerous inquiries of farmers and others in nearly all localities round about us, we are enabled to say, with confidence, that the corn crop is now almost entirely beyond the reach of damage by frost, and was never better. There is an occasional piece of late planted which is not yet passed the milk, but such pieces are but a small per cent of the amount growing. The corn crop is a perfect success.

The yield of wheat in this part of the county,—judging from those pieces which have already been threshed,—will not fall short of an average yield of thirty bushels per acre, and may exceed even that. Farmers who have threshed have generally measured by the bushel measure, while it is found by actual test, that it gains about one-tenth when measured up by weight.

Rye, oats and barley are also excellent, and all have been gathered in good shape.

Buckwheat is not sufficiently forward to be out of the way of the frost, but is rapidly maturing, and as there is a large breadth of land sown to this fine crop this year we may reasonably hope that our cakes will not cost a cent apiece, or twenty cents for cakes alone for breakfast, that being about a fair allowance. The straw and head is good, and if allowed to mature, the crop will be a fine one.

We notice in all parts of the country, and especially in this immediate vicinity and on some parts of Rock Prairie, fine fields of Hungarian grass, or millet, and from appearances, as well as from the testimony of those who have grown it, we can safely say it is a good and profitable crop for the farmers to grow. It has many advantages over other kinds of grass crops, among which are its value as forage, and the yield. We predict it will soon become a standard crop in this section of the country.

Of potatoes it is almost too early to speak, but as they are still growing finely, notwithstanding the long continued dry weather, we think there is no reason to doubt that the crop will be at least an average one, and we should not be surprised if it proved to be heavy.

Of grass we have no special information, but think it has been light on the uplands, generally. On the marshes, of course, it is always good, and as the gathering will not stop until the fall rains prevent further operations on the wet lands, there is no danger of even a scarcity.—*Whitewater (Walworth Co.) Register, Aug. 31st.*

Lawrence University, Wisconsin.

It is one of the best indications for our country that collegiate education keeps pace with the spread of our population. Colleges dot our western frontiers; they are found already in Oregon and California. They extend as fast almost as our ordinary business enterprise. And one very significant fact should be noted in connection with this remarkable progress of a public institution, which, we might suppose, would come late if not last, in the growth of new countries, viz: that religious bodies almost exclusively keep up this westward march of education. Whatever other aid comes to them is prompted by the influence of such bodies. Christian denominations found them, and it is apparent that without this religious agency the higher kind of education, if not indeed the lower, would advance but slowly in our new western arenas. This fact is not only very creditable to the religion of the country; it is especially demonstrative of the "voluntary principle," by which religion is supported among us.

Lawrence University, under the patronage of the Methodist Episcopal Church, but not exclusively Methodistic, has been one of the most promising of our western colleges. Edward Everett says of it:

"This university, if adequately endowed, cannot fail to become, by the divine blessing, a *radiating* point of intellectual, moral and religious light to unborn millions, who will, in the next half century, exercise a powerful influence in the government of our country. I consider the new states of the Union as the most important part of the educational field. The East is well supplied with seminaries of almost every kind, from the primary school to the university, and the institutions for professional education. Though much has been done, much remains to be done. I have no doubt this will succeed, if proper methods are persevered in to obtain an increase of endowment."

It is named after the Lawrences of Boston, who have given liberally to it. It has suffered severe loss by a fire, but has property remaining to the amount of $100,000. An effort is now making to provide an endowment of its presidency. The Rev. Dr. Cook has been elected president, and will accept the appointment, it is reported, if the endowment of the office is speedily secured. The doctor is an influential clergyman of the west. At a recent visit to Boston, where he formerly was a pastor, some of his old friends made him a valuable complimentary present, with eloquent speeches urging his return to the Hanover street church, in that city.

The agent of the university, Rev. R. Smith, being present, countervailed their pleas by pledges that $10,000 of the $20,000 endowment, should be immediately secured and the remainder within twelve months. He then found that a citizen had offered $10,000, on condition that $40,000 should be received elsewhere towards the more complete support of the institution. Mr. Smith is now pleading his cause diligently in the Eastern States. Gentlemen of various christian denominations concur in recommending his design. Bishop Clark, of Rhode Island, says:

"This university has already, in the few years of its existence, accomplished great things, and only needs larger funds and increased accommodations, in order to its becoming one of the most important centers of christian light and knowledge in our western country."

Dr. Walker, late president of Harvard, indorses this testimony. We commend this claim to benevolent citizens, who would make an investment of their liberality that shall be productive in the best sense, and permanently effective.—*N. Y. World*, Aug. 20

The New American Watch.

IN ORDER TO MEET THE REQUIREMENTS of Gentlemen who prefer a thinner watch than those usually made by us, we have lately issued a new style of watch on the three-quarter plate model, especially designed for this purpose.

In establishing this new series, it has also been our design to produce a watch in every way superior to the best and highest priced products of the most reputable of English and Swiss watch manufacturers; and no labor or expense has been spared to this end.

In all respects of fine and durable material, of external and internal finish, accurate compensation and adjustment, of mathematically just proportions, and of *practical results*, our new three-quarter plate watch challenges competition with any in the world.

MOTHERS! MOTHERS!

DON'T FAIL TO PROCURE MRS Winslow's Soothing Syrup for children teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skilful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arises from teething or any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

☞ None genuine unless the fac simile of CURTIS & PARKER, New York, is on the outside wrapper.

THE BLOOD IS THE LIFE.

NO MORE SHALL THE POOR SUFFERERS in our country languish, their constitutions racked and torn by strong and dangerous mineral medicines; they will come to the fountain of health, found in simple herbs and roots from nature's storehouse. THE MOUNTAIN HERB PILLS, of innocent mountain plants composed, will reach and stop their distress, and cause the blood, renewed and cleansed, to carry through the body the elements of health; building up the broken constitution and carrying life and health, where but for them would have been the wreck of hope—the feeble moan of suffering, at last ended by the cold hand of death. Do not let prejudice overcome your better reason; do not look upon these Pills as only like others; do not let your desp. ir, after trying everything else, prevent you from trying them. The blood must be pure, and then sickness is impossible.—What a great and yet simple truth is this! it appeals to the common sense of all: it is the great key-stone of the healing art. JUDSON'S MOUNTAIN HERB PILLS will purify and cleanse it as sure as the sun will rise to-morrow.

Judson's Mountain Herb Pills are sold by all medicine dealers. aug13d911dowoowlm

Sewing Machines.

THE

SINGER SEWING MACHINES!

The marked and ever extending popularity of **Singer's Sewing Machines!**

BOTH IN AMERICA AND EUROPE, is such as best to establish their superiority over all others in the market. Sewing Machines—*so called*—may be bought, it is true, for a smaller amount of dollars, but it is mistaken economy to invest anything in a worthless or unreliable article, and those who will do so must abide the consequences.

SINGER'S NEW FAMILY MACHINES.

In order to place THE BEST FAMILY MACHINES IN THE WORLD within the reach of all, we have reduced our LETTER A, OR TRANSVERSE SHUTTLE MACHINES, beautifully ornamented, to $50.

SINGER'S NO. 1 AND 2 STANDARD SHUTTLE MACHINES.

Both of very general application and capacity, and popular both in the family and the manufactory. Prices reduced, respectively from $135 and $150 to $90 and $100.

SINGER'S NO. 3 STANDARD SHUTTLE MACHINE, For carriage makers and heavy leather work. Price complete, $125. Also, to complete the list an ENTIRELY NEW ARTICLE.

Unequalled for manufacturing purposes: NOISELESS, RAPID, and capable of every kind of work! Price, (including iron stand and drawers,) $110—cheaper at that in view of its value than the machines of any other maker as a gift.

All of Singer's Machines make the interlocked stitch with two threads which is the best stitch known. Every person desiring to procure full and reliable information about Sewing Machines, their sizes, prices, working capacities, and the best methods of purchasing can obtain it by sending for a copy of J. M. Singer & Co.'s *Gazette*, which is a beautiful pictorial paper entirely devoted to the subject. It will be supplied gratis.

☞ Transportation will be added to the above prices, in all cases.

MEMORIES.

BY GEORGE D. PRENTICE.

Once more, once more, my Mary dear,
I sit by that lone stream,
Where first within thy timid ear
I breathed love's burning dream.
The birds we loved still tell their tale
Of music on each spray,
And still the wild-rose decks the vale—
But thou art far away.

In vain thy vanished form I seek,
By wood and stream and dell,
And tears of anguish bathe my cheek
Where tears of rapture fell;
And yet beneath these wild-wood bowers
Dear thoughts my soul employ,
For in the memories of past hours
There is a mournful joy.

Upon the air thy gentle words
Around me seem to thrill,
Like sounds upon the wind-harp's chords
When all the winds are still,
Or like the low and soul-like swell
Of that wild spirit-tone
Which haunts the hollow of the bell
When its sad chime is done.

I seem to hear thee speak my name
In sweet, low murmurs now,
I seem to feel thy breath of flame
Upon my cheek and brow;
On my cold lips I feel thy kiss,
Thy heart to mine is laid—
Alas, that such a dream of bliss
Like other dreams must fade.

MY BROTHER TOM.

He was a splendid fellow—my brother Tom. Two-and-twenty upon his last birthday, stood five feet eleven inches in his boots, trim patent leathers, and weighed a hundred and sixty pounds—not patent leathers, but Tom himself—in full costume. I had never worn patent leathers, though somewhat over twenty. It sufficed for me to see Tom in them. I could never aspire to anything which he graced so well. He was my ideal of a fine fellow. I had read of heroes in romances, elegant and brilliant Adonii—that's a better plural than Adonises—in novels; and heard marvels of the handsome, fascinating irresistible gallants of New York society.—Yes; the fame of Fifth Avenue and its exquisites had been murmured amidst undulating emotions of wonder, doubt, admiration and hesitation—the latter tinged by jealousy, perhaps, in our quiet country town of ——, in —— county.

State pride relieved us. The city of New York was in the State of New York, and we could yield at least a tacit consent to some excellencies there—tho' we were, of course, aware that it confessed notorieties of a questionable repute, and others by no means equivocal, which we heartily eschewed. But whatever its excellencies might be, I was quite sure it could not boast a more superb specimen of *le jeune homme* than my brother Tom. I would have bet—had I been a betting man, as Tom was, sometimes—upon our house, for a specimen of that genius, against all Fifth Avenue. Shall I expatiate upon form and feature? Shall I dilate upon his large dark eyes? Talk to him of a fine girl, and they would dilate of themselves. May I hint the rare promise of his luxuriant beard, and the curling outline of his ambitious moustache? I will not trust myself, for you have lady readers, Mr. Publisher, and I would not wantonly trifle with their feelings.

One of our rural belles at a party at our house, at about the time I speak of, only remarked to my sister what a handsome fellow Tom was, and in two days afterwards exhibited high fever and delirium! She affected to have taken cold on her way home; and while she was in the delirium the doctor forbade all access to her. But I have no doubt she raved of Tom; for they married her off within a month after she got well to a young fellow who professed to have been in love with her for two or three years, and to whom it was said she was devoted.—But I understood such manoeuvres. One thing I may say in her favor—she has made an excellent wife, so far; a fact from which I infer that she is gradually becoming resigned to the loss of Tom. I hinted all this to Tom himself; but he assured me that he had "never thought of it"—"should'nt wonder, though." I should think not, indeed!

When Tom was eighteen he had visited New York—spent a month there. Of course he was not then at all to be compared to what he was at twenty-two. But even then I admired him. Nor I alone. Upon his return he confided to me the most momentous affair in his life—the fact that a young lady had fallen frightfully in love with him. "Frightfully" was the very word he used, I believe. He always contemplated returning to New York out of compassion to that young lady, if it were only to let her see him once again before she died. He thought it was likely she would fall into consumption during that year, and die in the next spring. I fully believed it. He was never sent for, however, and we concluded that she had quietly perished and "never told her love." I always suspected that Tom was a little overcome by that girl himself; for during that suppositious fatal spring, Tom was affected with "spring fever," and I thought from sympathy with the case in New York. He got well however, and, as I said before, had survived his twenty-second birthday.

Father came in one evening, and brought his newspapers and a letter from New York—nothing unusual, as his brother and other relatives of ours were in business there.—On reading the letter he looked up and smiled.

"Here will be a fine chance for your gallantry, boys; a couple of New York belles are coming down to practice upon you."

"Who, father! Who?" exclaimed Tom, suddenly pausing in the midst of a fantasia on his German flute, which he played to perfection, I thought; though envy, I heard, had muttered detraction through the lips of a little darkey in the village, who, it must be confessed, was an absolute Jullien upon the Jewsharp. But it does not follow, I suppose, that he could discuss critically Tom's tune and time upon a six-keyed flute.

"Who are they, father?" repeated Tom.

"Your cousin Jane and her particular friend, Miss Adela Frome."

Tom started as if a musquito had bitten him. And I—I—sank back quietly in my chair with an easy suppressed feeling of astonishment, relieved by the assurance that Tom's irresistibility had not been fatal in the New York case.

"Adela Frome!" said Tom.

"Yes," returned my father; do you know her?"

"Well—yes; I saw her, you know, when I was in New York."

"O, yes," said my sister, "Adela is the young lady who so much affected Tom——"

"I beg your pardon, Grace," said Tom; "but if there was any sentiment between us—"

"Fie, Tom!" interrupted my mother, "you would not be so ungallant as to insinuate that it was all on the young lady's side."

"Not by any means, mother. I was never made sensible of any attachment in the case, either way." Tom flung it off with cool indifference.

I looked incredulous, and merely remarked, "We shall see."

That night, before we went to bed, Tom renewed his confidence with me on the New York affair. He said, with vast emphasis, that it was impossible for him to describe or for me to understand the thrilling emotion with which he had heard the name of Adela Frome, even from such unsympathizing and matter-of-fact lips as our father's. He was not aware before how indelibly her form and name and face had been impressed upon his heart. A moment's recollection, he said, had suggested to him the possibility of losing her—or rather, he hinted, the terrible thought that Gus Webster might thwart his love, and become a competitor for the fair Adela's hand. If he did, he insisted upon it that Gus should meet him in the field, and give him the satisfaction of a gentleman. He began to cast about him for a friend—a second; concluded, happily for me, that it would not do to call upon a brother; and at last postponed the further consideration of the subject indefinitely.

Who was Gus Webster? Why, he was a sort of splendid fellow of our village as well as Tom, but did not seem to know how to make the most of himself as a man ought to do. He was about the age of Tom, and almost as handsome—I have heard that some of the girls thought him quite so. But there is no accounting for feminine tastes.—I liked Gus very well; and father even said that he wished Tom was more like him.—He certainly did not mean in person—I could not detect any other superiority, and would not, I suppose if I could.

Tom's confidence went further. He insisted upon becoming Adela's lover the moment she set foot in——. He would declare himself at an early opportunity, and in good time make her his wife. So it was quite settled in my mind, that Adela Frome was to become Mrs. Wells, and my sister. And I went to sleep and dreamed of nephews and nieces by the score, and of the presents that I, in my respectable bachelorhood, should make them when I paid them a visit and dandled them on my knee.

Physicians are now prescribing it in the place of Paragoric—not having the *deadening* effect of that medicine upon the brain.

The physicians in each city, town or village in the State are solicited to apply to the undersigned, who will give them a bottle free of charge, to try before prescribing.

Dose for an infant six weeks old, one teaspoonful, diluted in two tablespoonsful of cold water, and given by the teaspoonful every five minutes until relief is effected.

Adults and children in proportion.

The want of pure Medical Brandy has long been felt in this country.

The properties contained in this Brandy are more stringent than French Brandies. This the manufacturers claim are the merits, and challenge the world to disprove these facts.

BOURBON WHISKEY BITTERS.

THESE POPULAR BITTERS POSSESS all the nourishing and invigorating properties of PURE OLD BOURBON WHISKEY, and are considered the most efficacious TONIC and STIMULANT, as well as the most agreeable STOMACHIC ever offered the public. As a TONIC for OLD PEOPLE, delicate Ladies, convalescent invalids, and all weakly people, they cannot be surpassed: in all cases of WEAKNESS or DEBILITY, they will give immediate relief, and impart a strong and healthy tone to the system. A trial will establish their merits over all other Tonics now in use. For LUNG COMPLAINTS, BRONCHITIS, DYSPEPSIA, NERVOUS DISEASES and LIVER COMPLAINTS, they are an invaluable remedy: and are a certain preventive of CHILLS and FEVERS.

Put up in Quart Bottles, in cases of one and two dozen, and for sale by Druggists and Grocers everywhere.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst kind of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative power, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessing to your husband and household.

In the more aggravated cases of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE:

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularities of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress upon your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly, DONALD KENNEDY.

THE SUCCESS OF THE NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a CERTAIN SCIENTIFIC PREPARATION, and acts with UNPARALLELED EFFICACY in all stages of Pulmonary and Nervous Diseases.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a preservative with regard to Consumption, just as vaccination does in regard to small-pox.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

IMMENSE GATHERING AT PEORIA.

30,000 REPUBLICANS IN COUNCIL.

Five Thousand Wide-Awakes in Procession!

PEORIA, Ill., August 31.

At the Republican gathering here to-day, the number in attendance was 30,000.—There was speaking this afternoon by Owen Lovejoy, Joseph Knox, L. Brentano and others. The trades were fully represented in the procession. Wide-Awakes to the number of 5,000 are marching and counter-marching the streets. To-night there is speaking in the Wigwam, and from several stands. Great enthusiasm prevails.

Later from California.

ST. JOSEPH, Mo., Aug. 32.

The pony express, with the following summary of news, arrived last night:

SAN FRANCISCO, Aug. 18.—Reports are in circulation that the Tehuantepec route is soon to be opened and a line of steamers established between San Francisco and New Orleans.

The pony which should have brought the express letters with St. Louis dates to Aug. 4th arrived at Carson river on the morning of the 15th without rider or letter bags.—The supposition is that the horse threw the rider and got away, or else that the Indians killed the rider and took the letters and allowed the horse to escape, the latter part of the theory not being probable, as the Indians would have kept the horse also. The pony arrived at the station only a few hours behind time, so that the accident or whatever was the matter, must have happened but a short distance east of Carson Valley; yet, after an interval of nearly three days, no further explanation of this strange interruption is given.

Another express, with St Louis dates to the 7th, is due to-day. Its arrival, will be telegraphed to overtake the outgoing express at Carson Valley, to morrow evening, if it comes in sufficiently early.

The outgoing pony express of the 15th, passed through Carson Valley on the 16th, and departed thence for the East, the same as though nothing had happened. The last two expresses have taken their usual supply of letters.

All the political parties are actively preparing for their respective conventions to nominate electoral tickets and politics in all the interior counties engross the general public attention.

In San Francisco the Republican organization manifested the most force and zeal. They will probably carry the city for Lincoln, and entertain strong hopes of carrying the State. Everything indicates that this is to be a year of great political change in California.

Col. Fremont has issued a notice to the Chinese who are working the gold mines on his grant, forbidding them to pay any more license tax under the State law taxing foreign miners.

He claims that all the gold contained in the soil belongs to him, and the State has no control over the disposition of private property. The principle is whether the owners of land under our Government are also owners of the minerals, gold and silver, contained in the soil—a question never yet determined by the Supreme Court of the United States.

The schooner Caroline Foote, which recently brought the camels from Liberia, sailed yesterday for the Amoor river, via Hakodadi, Japan, taking home several Japanese, who were left here sick by the Japanese steamer.

News from Washington.

Special Dispatch to the N. Y. World.

WASHINGTON, Aug. 28.

THE NEW YORK COALITION.

Collector Schell is at Bedford Springs, awaiting orders from Mr. Buchanan in regard to the fusion movement in New York. The President opposes any amalgamation of the Breckinridge and Douglas tickets, for he would rather see Lincoln than Douglas occupying his seat.

WHAT MR. LANDRUM SAYS.

Mr. Landrum, M. C. from Louisiana, stated last night in a speech before the Jackson association, that the Breckinridge Executive Committee of New York only waited for overtures from the Douglas-Bell-Everett party to unite in the support of the joint electoral ticket. He was sure such would result in the election of Breckinridge by the house or Mr. Lane by the Senate. The Breckinridge party intended to make the Douglas-Bell ticket the instrument by which they would again ride into power. All of which is pretty talk for Mr. Landrum.

ELECTORS WANTED.—The Douglasites in Mississippi have not yet been able to find seven men in the State willing to serve as Douglas Electors. The following card we take from the New Orleans *Courier*:

A CARD.—In the *Picayune* of yesterday I see my name announced as Elector on the Douglas State ticket in the Fifth Congressional District of Mississippi. There is some mistake in this, as I have never been consulted on the subject by any party. I have long been the personal and political friend of Mr. Douglas, and have a grateful recollection of many of his acts. But I indorse the action of the Mississippi delegates in the Charleston Convention, and elsewhere, and shall vote for Breckinridge and Lane. I am a Southern man, and I stand by my section and State against the world.

MONETARY.

SATURDAY P. M., September 1, 1860.

The money market has been very uniform and steady during the past week. The demand for money has largely increased but still there has been no difficulty experienced in obtaining all that was needed, and the market closes with an abundant supply of currency in the banks. Our increased shipments of grain have made Exchange easy at the current rate, ¾ per cent. premium. It is not improbable that there will be a decline in the price before the close of another week.

CHICAGO MONEY MARKET.—The *Press & Tribune* of this morning has the following:

The urgent demand for Eastern exchange this morning caused the banks generally to advance the rates ¾ per cent premium. In the afternoon, however, the market was scarcely so firm, and there was less difficulty found in buying on the street than at the close yesterday. With a continuation of the present liberal receipts of produce and a buoyant market, it only requires a good supply of vessels to make our shipments large enough to cause a decline in exchange to the rates which ruled ten or twelve days since. Currency is in good supply.

COMMERCIAL.

SATURDAY P. M., Sept. 1, 1860.

The enormous wheat crop of Wisconsin, Northern Iowa, and Minnesota, has now fairly commenced to move. The receipts for the past week foot up 306,719 bus, exclusive of flour, against 137,842 bus for the corresponding week last year. To-day alone they are better than 100,000 bushels, and will probably exceed this for every day next week. We have facilities for handling 150,000 bushels daily, but it looks as if they would be inadequate to meet the wants of our trade this fall.

The following table will show the sources of our supply of grain and flour for the past week:

The wheat market has maintained a firm and buoyant tone during the past week, and closes considerably excited under the influence of yesterday's foreign news. Prices went up 4c immediately on the receipt of the *Africa's* advices, and the sales were large, exceeding 114,000 bus for the day. This morning the *Fulton's* news caused another advance of 5c, No. 1 selling freely at $1 in store, and $1,02 on board. But towards noon the market receded to 98c for No. 1, a corresponding advance with that in our market not having taken place at New York. After the high prices that were obtained in the morning, holders were very loth to sell at the decline, and the market was quite inactive during the afternoon. Flour has not come up so rapidly as wheat, but is held at an advance of about 20@25c above last week's prices. The unsettled state of railroad freights has prevented much activity in the market. To-day a few hundred bbls sold at $4,75 @4,85 for good city and country extra, and $5 for very choice brands.

Coarse grains still continue quiet, the receipts, though improving, being too light to create any demand except for local use. Oats are selling at 20@21c; Corn at 40@42c; Barley at 50@62½c for Minnesota and choice Wisconsin; Rye at 45@46c. There has been no material change in other articles of produce. Highwines have advanced 1@1½c, selling at 20@20½c, and Whiskey is very firm at former quotations.

Freights on grain have again gone up to the highest point touched this season. Yesterday nine vessels were chartered at 15c for wheat to Buffalo and 22c to Oswego and Kingston. To-day all that arrived were taken at 16c and 23c to these ports respectively. The Detroit & Milwaukee Railway is taking wheat at 15c to Buffalo in less than half the time it requires vessels to get there, and now that Lake freights have got up so high, large quantities are being put up in barrels for shipment by that route. The barrels sell for about as much as they cost here at Buffalo or New York, and the Railway Company defray the expense of cartage. Through rates on flour have advanced 10c ⅌ bbl, and on fourth class freight 5c ⅌ 100 lbs., and are the same both by Lake and Railroad, viz:

Flour to New York, ⅌ bbl $1,10
" Boston, " 1,25
" Portland, " 1,10

The general wholesale trade continues improving, and the reduction in freights to the upper Mississippi, consequent upon the "packet war," has brought in a large batch of orders from Minnesota, for all descriptions of goods. Capt. DAVIDSON's new line of boats, running in connection with the Milwaukee & Minnesota R. R., is doing a good work for our city, as well as the towns along the river. Our merchants have already a large stock of goods on hand, mostly received previous to the late advance in rates of transportation, which saving they will doubtless give their customers the benefit of. The *Dry Goods* trade never was better, our leading houses being employed night and day, filling orders, and the indications are that the season will be an unprecedentedly active one in all departments of trade.

The following statement exhibits the daily receipts of flour and grain by railroad for the past week, and also the exports of the same articles by lake for the week:

In reference to the market the *Press & Tribune* says:

There was a good inquiry for freight room to-day, but vessels were very scarce. A propeller took 9,000 bus wheat to Buffalo at 16c, and a sail vessel at 15c. Seven or eight vessels were engaged to arrive at 15@15½c for wheat to Buffalo, and 21c to Oswego.

The *Africa*, with one day's later news, was telegraphed this morning, reporting an advance in all kinds of breadstuffs on account of a continuance of unfavorable weather. Flour had advanced 6d@1s; wheat was 2d@3d higher; and corn had advanced 6d @1s.

Notwithstanding the large receipts of wheat—166,246 bushels—the market, under the influence of the steamer's news, opened firm, and becoming active and buoyant, and advanced 5@6c ⅌ bushel. About 200,000 bus changed hands, mostly for shipment, at 89@93½c for No. 1 Spring; 85@90½c for No 2 do; and 77c for Rejected—closing firm at 92c for No. 1, and 90c for No. 2. Flour was also in better request, and an advance of 15@20c was established—there being a good inquiry for round lots of choice extra Spring brands. Upwards of 3,000 bbls were sold at $4 50@5,00 for fair to choice Spring extras; $5 for Red Winter; and $5,38 @5,62½ for White Winter extras. Corn was also in better demand and the market advanced 1@2c, with sales of 30,000 bus, at 37@37½c for No. 2 Canal afloat; 36½@38c for No. 1 in store; and 35@36c for No. 2. Oats were firm, with limited transactions at 19 @19½c. Rye in good demand and steady. Barley was sold by sample at better prices, No. 1 bringing 58 @60c on track. Highwines are more firmly held—with sales of city manufactured in small lots at 20c.

Weekly Review of Milwaukee Markets.

SATURDAY P. M., Sept. 1, 1860.

ASHES—Pots $4,50 ⅌ 100 lbs.; Pearls $4,56.

BUTTER—Receipts for the week 4,745 lbs. There is a fair enquiry for shipment at 10c for firkin; and fresh roll is firm at 11@13c for good to prime.

CATTLE—The following sales of beef cattle at J. & G. ADAMS' yard to-day, will show the range of the market:

4 cattle, average weight 1,050 lbs., at $2,87½
5 " " 1,280 " 2,62½

2 " " 1,350 " 2,25
1 " " 1,120 " 2,12½

COARSE GRAINS—Receipts of all kinds continue light, and prices are nominally about the same as last week. We quote Oats at 20@20½c; Shelled Corn 40 @42c; Barley 50@62c for No. 1 to Extra; Rye 45@46c. Deliveries for the week by rail foot up 1,830 bus oats, 681 bus corn, 3,406 bus barley, and 1425 bus rye.

EGGS—Dull and lower, bringing only 5½@6c ⅌ doz by the bbl. Receipts for the week are 102 bbls.

FLOUR—Receipts by Railroad for the week are 5,078 bbls; by Lake 111 bbls. The shipping demand has been checked by the scarcity of freight room, but the market closes very firm at an important advance.—The daily sales of the week are as follows: *Monday*—100 bbls "Dartford" Extra at $4,37½; 100 bbls "Queen City" Extra at $4,75. *Tuesday:* 34 bbls "Honey Creek" Extra at $4,40; 50 bbls "Wolf River" do at $4,50; 230 bbls "Berlin City" on p. t. *Wednesday:* 25 bbls "Mazomanie" spring Extra at $5 delivered; 100 bbls "Washington" and 200 bbls of another brand on private terms. *Thursday:* 100 barrels "Queen City" Extra at $4,75 delivered; 100 bbls "Constitution" and 96 bbls "Berlin City" at $4,62½ on track; 200 bbls "Eagle" on p. t., and 450 bbls other brands also on p. terms. *Friday:* 100 bbls "Queen City" Extra at $4,75; 50 bbls "Wolf River" at $4,60. *Saturday:* 150 bbls mixed country brands at $4,70@4,75; 100 bbls "Mazomanie" at $5,10 in store; 87 bbls "Silver Sheaf" at $4,85.

FRUIT—The supply of green fruits has been quite liberal, mostly from Michigan, and prices have ruled lower than any previous week this season. Apples have ranged from $1,37 to $2,50 ⅌ bbl for inferior to good qualities, and peaches 75c to $3,00 ⅌ basket, according to quality, which has been as diversified as prices. We note receipts of 975 bbls and 150 bus apples; and 418 baskets and boxes peaches.

HIDES—Receipts for the week 680 pieces and 500 lbs by Railroad. No change in prices. We quote green at 5@6c; green salted 6@7c; dry salted 10@12; dry flint 12½@13½.

POTATOES—Very plenty, and selling at 15@20c per bushel at wholesale.

SEEDS—There is a fair inquiry for Timothy Seed, and buyers would pay $2@2,25 for a nice article if they could get it just now; but it would hardly be safe to buy with a view of realizing more than $2, as the tendency is downward in other markets.

SPIRITS—Of all kinds are firmer, and Highwines 1@2c higher. The quotations to-day are: Highwines 20½@21c; Alcohol 43c; Whiskey very firm at 16@17. We note receipts of 146 bbls highwines, and 213 bbls alcohol.

WHEAT—The market closes greatly excited and irregular under the influence of the late foreign news, and the early sales of to-day show an advance of 11 cents for the week on shipping brands. Receipts by railroad for the week are 305,719 bushels; besides a large amount brought in by teams. Milwaukee Lumber Market.

(FOR WEEK ENDING AUG. 31ST, 1860.)

Receipts for the past week and the season thus far will be seen by the annexed statement:

	For past week.	For the season.
Lumber, feet	673,000	20,924,000
Lath, ft	84,000	1,245,000
Shingles	28,000	10,265,000

Receipts continue light, and cargoes are in demand. Not enough arrives to supply the market. Trade at the yards for the past week has been quite brisk, and prices are very firm at quotations. Dealers are disposed to hold their lumber in preference to selling, as there is little doubt but prices will go considerably higher.

Among cargo sales are the following:

Schr. Buena Vista, Manistee, $8,50,

Schr. Brigham, Grand River, common lumber, at $7,50.

We are indebted to Messrs. HOUGHTON BROS., lumber dealers, corner of Third and Tamarack streets, for the folowing list of yard prices:

RAILWAY MATTERS.

THE CHICAGO & NORTHWESTERN RAILROAD.

EDITOR SENTINEL:— At a late meeting of some of the managers of the above road and its Appleton friends, the Hon. PERRY H. SMITH, Proprietor and General Managing Agent of that road, gave, in substance the following toast:

The Chicago & Northwestern Railroad and its Appleton Friends—We have succeeded in keeping Neenah and Menasha in a quarrel until we have *stolen* the bird.

We have no criticism to pass upon the beauty of the figure used in this sentiment. "Veritas in Poto" may account for the fact that the usually sagacious gentleman has let the "cat out of the bag." For an individual to build up his own reputation and wealth by pulling down his neighbor, has in all ages been considered the highest indication of a weak brain: and when this same procedure is attempted upon communities it becomes almost a crime. Certain individuals, by being willing to do any job for the honest or dishonest penny, succeed often in accomplishing their purposes by the means before mentioned. A munificent grant of land—1,500,000 acres—was made by Congress in 1856, for the purpose of constructing a railroad from Fond du Lac, northerly to the State line. By a systematic course of villainy (no milder term would do justice to the subject,) the Chicago and Northwestern Railroad Company obtained the control of this grant. If the road had been constructed in good faith, perhaps the Company might have retained the undisturbed control of the grant. Black Mail has, however, been levied upon Fond du Lac, Oshkosh, Neenah and Appleton, by the Company, to the extent of thousands of dollars in the shape of corporation bonds. The land has been out of market more than four years and still the Company have constructed only about fifteen miles of the road. The grant was made for the benefit of the people and localities along the line of the route—and who has thus far had any benefit of it? Now, the first mortgage bonds of that Company will hardly bring thirty cents on the dollar, and, of course, its stock is worthless. The agent of a company, reported to be bankrupt in purse and character, with all the impudence of veteran rascality—the honorable gentleman who gave the sentiment at the head of this article—comes among the citizens who have listened to his smooth promises and sophistries to their own injury, and boasts that by keeping Neenah and Menasha in a quarrel, they (the Company and Appleton) have caught the bird. Perhaps the bird is not yet caught, and perhaps the honorable gentleman will have to run a little further with his "salt" before he catches her.

MILWAUKEE.

RIVER NEWS.

From La Crosse.

Special Correspondence of the Sentinel.

LA CROSSE, Wis. Sept. 1, '60.

Frank Steele, of the La Crosse Line, left St. Paul yesterday at 10 o'clock a. m., and overtook the *Ocean Wave*, of the Galena and Prairie du Chien Line, at Red Rock, aground in the channel; and after being detained by her an hour, passed and left her there. She met the *Winona*, of the La Crosse Line, and the *Milwaukee*, of the Galena Line, close together below Red Wing, on time; met *Æolian*, of the La Crosse Line, in Lake Pepin, bound up; passed the *Golden Era*, of the Galena Line, hard aground on Beef Slough; met the *Favorite*, of the La Crosse Line, below Winona, on time; met the *Fanny Harris*, of the Galena Line, just above La Crosse.

The *Fred Lewis*, of the St. Louis Line, laid up on account of fog, just below Trempeleau; which detained the *Steele* about five hours, arrived here with a good trip of passengers and freight.

The *Ocean Wave* passed down this afternoon at 2:20—having been SIX DAYS on her round trip from La Crosse to St. Paul and back. She refused to take a sack of wheat, or a pound of freight from here, at the reduced rate given out by her agent.

CHECKING BAGGAGE THROUGH

To Pittsburg, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with the Cleveland & Columbus R. R. to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable, both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

Tickets for sale at all the principal ticket offices at the West, and at the Company's office, No. 30 Dearborn St., opposite the Tremont House, Chicago, and at the Union Ticket office, No. 210 East Water St. Milwaukee.

WHEREAS, THE MANITOWOC AND Mississippi Railroad Company, a Corporation duly constituted by the laws of the State of Wisconsin, did execute to the subscribers, on the first day of October, in the year A. D. 1856, a mortgage deed, whereby all their railroad, from its eastern termination in the village of Manitowoc, to the Fox river, at the village of Menasha, in the county of Winnebago, being forty-two miles in distance, constructed and to be constructed, together with all and singular the roadway and land procured or acquired, or to be procured or acquired, for rights of way within the limits aforesaid, together with all bridges, fences, privileges, rights, franchises, and real estate owned by said Company for the purpose of said road, or which would be then after owned or acquired by the said company, within the limits aforesaid, and all the tolls, income, issue and profits to be had from the same, and all lands which were or should be used and occupied for depots or stations, or which should be thereafter procured therefor, with all the buildings standing, or which should be erected thereon, together with all locomotives, tenders passenger cars, freight cars, shops, tools and machinery owned or thereafter acquired by the said company, and in any way belonging or appertaining to the said railroad constructed and to be constructed within the limits aforesaid, including all its property, real or personal, pertaining to said railroad within said limits, and all its rights, credits and franchises thereunto belonging, were conveyed to the undersigned, to be held by them in trust for and as a security to the bondholders of the said company, for the payment of the bonds of the company, secured by said mortgage deed, and of the interest thereon as it should become due.

And whereas, by said mortgage deed it is provided that if said railroad company should fail, neglect or refuse to pay the principal sum, or any part thereof, or any of the interest on any of the bonds of said company secured by said mortgage deed, at any time when the same shall become due, and payable according to the tenor of said bonds, when demanded, then, at the expiration of sixty days from and after such default, failure, neglect or refusal, in case such principal or interest should then remain unpaid, the subscribers hereto were authorized and directed by the said mortgage deed, upon the written request of the holders of at least one-half of the said mortgage bonds issued under said mortgage deed then outstanding unpaid, to cause the said premises, real and personal estate, and property, rights and franchises, or so much thereof as should be necessary to pay and discharge the principal and interest of all the said mortgage bonds as should then be unpaid, to be sold at public auction, in the village of Manitowoc, in the State of Wisconsin aforesaid, or in the city of New York, on giving at least ninety days' previous notice of the time, place and terms of such sale, and of the real and personal property and estate, rights and franchises to be sold, by publishing the same in two newspapers of good circulation in each of the cities of Milwaukee and New York, in order to pay and discharge the principal and interest of the mortgage bonds aforesaid, and on such sale to execute and deliver to the purchaser or purchasers thereof a good and sufficient deed of conveyance in fee simple for the same, which will be a bar against the said railroad company, their successors and assigns, and all persons claiming under them, of all right, interest or claim of, in or to the said premises, real and personal estate and property, rights and franchises, or any part thereof.

And whereas, the interest that became due on the first day of October, 1857, upon all the bonds issued by said company secured by the mortgage deed aforesaid, amounting to the sum of three thousand one hundred and fifteen dollars, was not paid by said Company, of which non-payment more than one-half of said bondholders have given the undersigned due and sufficient written notice, in full compliance with the conditions of said mortgage, and have required them to proceed to sell said property in order to pay the amount due them on said bonds.

Notice, therefore, is hereby given, that in pursuance of the authority in us vested by said mortgage deed, we will expose for sale at public auction, to the highest bidder, for cash in hand, or for the said outstanding mortgage bonds, or any of them, at the Merchants' Exchange, in the city of New York, on the 4th day of December, 1860, at 12 o'clock M. of that day, all and singular the Manitowoc and Mississippi Railroad Company, together with the privileges, rights, franchises, personal property and real estate of said Company, with all the rights, privileges and profits appertaining thereto, in order to pay off the indebtedness of said Company, to said bondholders, and the cost and expenses of this sale.
